Late today official word came from Rome of a new Italian success on the Trentino front. Gen. Cadornas troops carried the powerfully fortified and stubbornly defended Monte Cavento.

Simultaneously Berne dispatches asserted the federal council, seeing no chance of success at present, will not take the initiative in proposing peace to the beiligerents. The council, it was said, would disregard various petitions requesting peace proposals. Speculation was promptly set affutter here whether the council had stated its position thus in order to disavow from the outset any efforts which the unnamed member is to make in behalf of Germany. Separate Peace Courted.

There would be nothing surprising in the reported formal German offer, observers here point out. Germany and her allies have courted peace with Russia ever since the Muscovite revolution. German statesmen have taken special pains to convince the Russian Council of Workmen's and Soldiers' Delegates that the latter's aims and principles are also those of Germany. Only today the German government organ, the Nord Deutsche Allegemeine Zeitung, emphasized this point, saying Germany never sought annexations or indemnities from Russian in the result of the second services of the second second services of the second services of the second second second services of the second seco Separate Peace Courted. Thousands of patriotic citizens in Washington and in cities and towns throughout the country who unhesitatingly offered their money in the cause of liberty may be disappointed. With subscriptions and yet more subscriptions and yet more subscriptions to the loan pouring in. Out of the overwhelming deluge of subscriptions of all denominations and from all classes the total amount of the liberty loan could only be estimated last night, thirty-six hours after the closing of the books. That the loan was oversubscribed by at least \$750,000,000 appeared evident, however, with the District of Columbia's chare mounting toward \$19,000,000—over \$10,000,000 more than its allotment. First Official Offer.

If the report of the German peace offer is true this is the first time peace representations have been made directly to the provisional government. From time to time since the Russian revolution there have been reports of indirect offers once through the Socialists and again through a group of Austrian officers and soldiers on the eastern front. About 100 of the Austrians under a fing of truce entered the Russian lines not long ago and attempted to bring about an armistice but all were arrested.

Figures actually tabulated in New York. Boston, Philadelphia, Atlanta, Cleveland, and San Francisco and official estimates in other districts showed a subscription of \$2,715,200,000, and the work of compiling totals was still in progress. District subscribers accounted for up to the close of business last night was close to \$5,000.

Authentic figures on the loan will not be known until tomorrow, the Treasury Department announced. All of the Federal reserve banks will then have made their formal returns on the bonds sold in their districts.
